PRESS RELEASE

Encore Discovery Solutions Recognized Once Again for Excellence in Electronic Discovery Services

As Law Technology News presented its Sixth Annual Technology Awards, Encore Discovery Solutions, a global leader in electronic discovery and data forensics with extensive experience handling high-profile cases for global law firms, corporate law departments and federal agencies, was once again recognized for its commitment to excellence. The company received two Gold Awards for Electronic Discovery Services Identification and Preservation and a Bronze Award for Electronic Discovery Services Production.

Recipient of the 2008 LTN Litigation Support Service Award, Encore Discovery Solutions is continuously researching and implementing innovative, state-of-the-art technologies, services and expertise, specifically designed to support the ever-changing demands of today's litigation industry.

The 2008 Law Technology News Awards are accessible at: www.lawtechnologynews.com/awards

Also ranked as a leading provider of electronic discovery and related services by the respected Socha-Gelbmann Survey for both 2007 and 2008, Encore Discovery Solutions has been a global full-service electronic discovery vendor since 1995. Headquartered in Phoenix, Arizona, the company has regional offices in New Jersey, Washington DC, Chicago and Los Angeles, and satellite offices in Newport Beach, Portland, Denver, Austin, Houston, San Antonio and the San Francisco Bay Area. Encore Discovery Solutions currently hosts data from over 3,000 active cases, securely storing more than 20 times the volume of documents archived in the Library of Congress.

The company's tradition of knowledge and innovation, coupled with its focus on helping clients achieve favorable results, enabled it to become one of the leading providers of electronic discovery services, including forensics and collections, data minimization solutions, ediscovery processing, web hosting and review, document imaging and coding.
